

Planneradora

Simplicity and Organization at your fingertips

Team Members:

Askar Alaskar, Sergio Nogueira, and Mohammad Ghiasy

Planneradora:

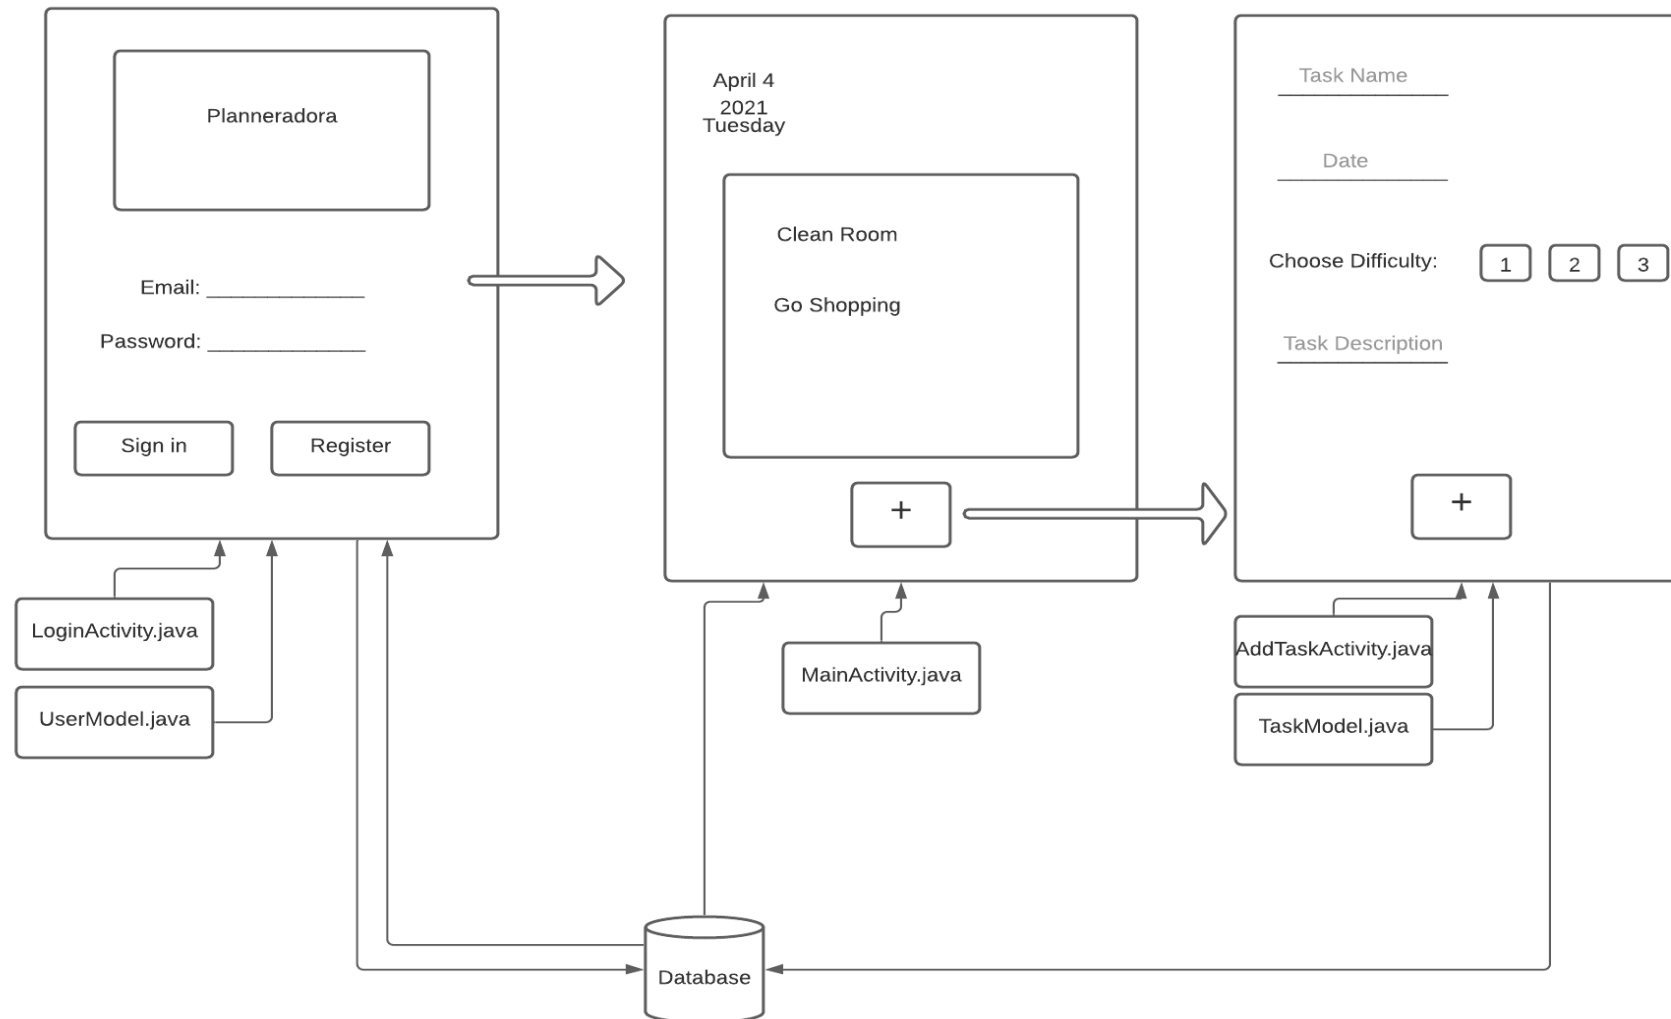

- An aesthetic & simplistic way to keep track of your tasks
- Many options for customization of tasks
- Unlocalized storage of tasks
- Fast, responsive, pleasant to the user
- (Omitted) Reporting completed Tasks/Profile summary
- (Omitted) Tamagotchi reward system

Methodologies:

- Agile
- Code Reviews
- Synchronous Merging of Commits (avoiding deviating from main branch)
- Pair programming

Architecture Diagram:

Challenges:

- Learning Android Studio for the first time
- Setting up and interacting with the firebase database and using the firebase Authentication API.
- Emulator Overload
- Merge Conflicts
- Translating JSON into JAVA
