

**Team Name: The Four**

**Team Members:** [Sergio Nogueira Jr. - <https://github.com/seno7509>] / [Askar Alaskar - <https://github.com/moal2839>] / [Mohammad Ghiasy - <https://github.com/paimang>]

**Project Name:** Planneradora

**Team Number:** 006

**Section:** 014

**GitHub Repository:**

[https://github.com/CSCI-3308-CU-Boulder/3308SP21\\_section014\\_6/](https://github.com/CSCI-3308-CU-Boulder/3308SP21_section014_6/)

---

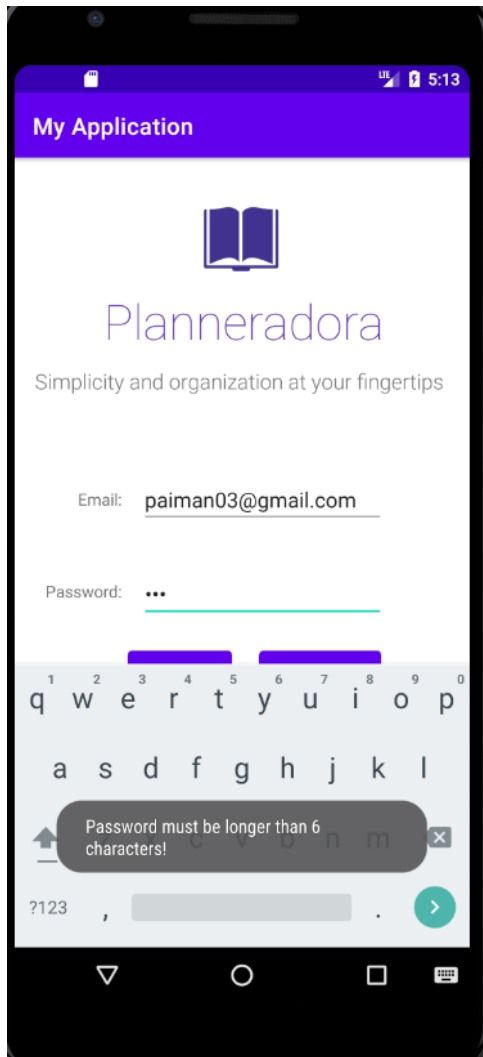

## [Project Milestone 5](#)

**User Acceptance Tests (Copy of UAT plans for at least 3 features):**

- User authentication fails when the user provides invalid credentials.
- Users should be able to login with correct credentials.

<https://www.youtube.com/watch?v=EzOl6qX9dsg>

- Checks if password length is longer otherwise you won't be able to create an account.

## Individual Contributions:

### JIRA Board:

<https://csci-3308-spring21-6.atlassian.net/jira/software/projects/THEF/boards/1>

**Sergio Nogueira :** Removed application bar from the top to create more visually appealing graphics. Fixed a bug where the API and checker parameters would display 2 toast messages.
